SUMMARY

Results-driven self-taught software developer with expertise in JavaScript, React, HTML, and CSS. Passionate about creating efficient and user-friendly applications, I have honed my skills through independent learning and hands-on experience. With a strong foundation in web development, I thrive in dynamic environments, adapting quickly to new technologies and delivering high-quality solutions. Known for my collaborative nature and problem-solving abilities, I am eager to contribute my self-motivated approach and technical expertise to drive innovation and enhance user experiences in a software development role.

SKILLS

- ✔ JavaScript
- ✔ ReactJS
- ✔ HTML-5
- ✔ CSS-3
- ✔ Tailwind
- ✔ BootStrap
- ✔ MongoDB
- ✔ NodeJS
- ✔ ExpressJS

PROJECTS

ElectronixHub | MERN E-Commerce Website

- Developed a MERN eCommerce website specializing in tech products, utilizing MongoDB, Express.js, React.js, and Node.js. Write well-designed and efficient code by using the best software development practices
- Designed and implemented a seamless user experience, ensuring an intuitive interface and smooth navigation.
- Implemented a robust backend functionality, enhancing the website's performance and scalability.
- Integrated secure payment systems to ensure a safe and reliable transaction process.

Crypto Central | ReactJS App

- Developed a crypto website that leverages the Coingecko API to deliver real-time information on cryptocurrency prices and market trends.
- Utilized Firebase as the back-end infrastructure to ensure seamless data management and scalability.
- Implemented ReactJS as the front-end framework, enabling efficient rendering and dynamic user interactions.

GoalTrackr | ReactJS App

- Created a dynamic and engaging football website portfolio project using React and Tailwind CSS.
- Integrated the API-FOOTBALL to provide live game updates, league fixtures, and match filtering.
- Implemented an intuitive design to enhance user experience and facilitate easy navigation.
- Utilized real-time updates to keep football enthusiasts informed about their favorite teams and leagues, ensuring they stay up-to-date with the latest information.

EXPERIENCE

TATA Consultant Services

IT Analyst | May 2019 - Present

- Analyzed and resolved incidents/requests related to application software and hardware, ensuring timely and effective solutions.
- Logged and tracked incidents/requests from identification to resolution using incident management software, maintaining accurate records and documentation.
- Engaged appropriate service resources when necessary to resolve complex incidents, leveraging teamwork and expertise to deliver efficient solutions.
- Fostered a positive customer support experience by actively listening to customer needs, applying problem-solving skills, ensuring prompt resolution or escalation, and maintaining a consistently professional demeanor.
